

Sunil Kumar Patidar

+91 7062006971 — sunil.dev9928@gmail.com — LinkedIn — GitHub — Portfolio — Gurugram, India

Professional Summary

Software Developer with nearly **2 years** of experience building production-grade applications using **React.js, Next.js, TypeScript, and JavaScript**. Experienced in developing **scalable frontend architectures, reusable component systems, responsive user interfaces, and high-performance customer-facing applications**. Delivered **5 production D2C storefronts**, implemented **analytics and observability solutions**, and built **AI-assisted engineering workflows** using **Claude Code, Cursor, and MCP Servers**. Strong foundation in frontend engineering, performance optimization, and **700+ DSA problems**.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C, C++, Java

Frontend: React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap, SSR

Styling: Tailwind CSS, CSS Modules, Bootstrap, Media Queries, Mobile-First Design

APIs & Integration: REST APIs, GraphQL, JSON, Shopify Storefront API, JWT Authentication

Analytics: GA4, PostHog, Meta Pixel, Meta Conversions API
Monitoring: Sentry, Production Monitoring, Debugging, RCA
Backend & DB: Node.js, Express.js, MongoDB, PostgreSQL, MySQL

Tools & DevOps: Git, GitHub, Jira (Agile/Scrum), Postman, VS Code, AWS, Vercel, CI/CD

AI & Productivity: Claude Code, GitHub Copilot, Roo Code, Vibe Coding

Experience

Primathon

Jan 2025 – Present

Associate Software Developer

Gurugram, India

- Built and shipped **5+ pixel-perfect, responsive production storefronts** — bBLUNT, Plix Kids, Weryze, Aqualogica, and Elevate — using **React.js, Next.js, TypeScript, and Tailwind CSS**, delivering business-critical commerce experiences for high-traffic consumer brands.
- Built the complete storefront page suite — **Home, PLP, PDP, Cart, Checkout, Thank You, Order History, Order Detail, and Profile** — as **reusable, shared components** reused across all **5 D2C brands**; engineered shared **API functions and reusable flows** for the **cart flow, add-to-cart API, and post-order flow**, eliminating duplicate code and ensuring consistent behavior across storefronts.
- Built **reusable, modular component libraries** with clean, scalable code using **React functional components, hooks, Redux, and Context API** for consistent state management across complex UIs.
- Developed **mobile-first, cross-browser compatible** web applications using **CSS3, Tailwind CSS, and media queries**, ensuring consistent behavior across Chrome, Firefox, Safari, and mobile devices.
- Integrated **RESTful APIs and GraphQL** (Shopify Storefront & Admin APIs) to handle **JSON data flows** between frontend and backend, working closely with backend developers for seamless end-to-end delivery.
- Implemented **analytics and observability** using **GA4, PostHog, Meta Pixel, Meta Conversions API, and Sentry** to support user insights and production monitoring.
- Optimized frontend performance via **SSR, lazy loading, code splitting, and image optimization**, achieving **90+ Lighthouse scores** and strong **Core Web Vitals (LCP, CLS, FID)** across all production apps.

Coding Blocks

Oct 2024 – Jan 2025

Software Developer Intern

Remote

- Built reusable UI components and dashboards using **React.js, Vue.js, Tailwind CSS, and Chart.js**, improving reporting workflows and operational visibility.
- Improved frontend performance through **React Hooks, lazy loading, code splitting, and component optimization** techniques.
- Developed backend features using **Node.js and Express.js**, and worked with **MongoDB** for data modelling and API integration, contributing to full-stack feature delivery.

Projects

D2C E-Commerce Storefronts — 5 Production Brands

Primathon, Gurugram

- Architected **5+ pixel-perfect, responsive production UIs** using **React.js, Next.js, TypeScript, Tailwind CSS, and Redux**; translated **Figma designs** into modular, reusable component libraries with cross-browser compatibility.
- Integrated **Shopify GraphQL & REST APIs**, payment gateways, and **GoKwik/KwikPass**; wrote **Jest** test suites; optimized **Core Web Vitals** via SSR and code splitting; deployed on **AWS** with **Jenkins CI/CD**.

Education

Bachelor of Technology, Indian Institute of Information Technology, Dharwad
Computer Science

2020 – 2024
CPI: 7.5

Achievements

- Solved **700+ DSA problems** across LeetCode, GeeksforGeeks, Codeforces, and CodeChef.
- Achieved **1700+ rating** on LeetCode, **3-Star** on CodeChef, and **Pupil** on Codeforces.
